

Workshops for Effective Forest Leadership Teams

A Simple, Pre-Approved BPA for Forest Supervisors to Succeed Faster

Do any of these challenges sound familiar?

- Allocating dollars amid shrinking budgets
- Filling vacancies to keep up with ongoing turnover
- Defining a vision for your forest and aligning work to it
- Building trust in remote and dispersed work environments

***If so, you are not alone - MPS can help.
See reverse side for how to order.***

Forest Supervisors face challenges in defining and organizing their FLT's top priorities and work. With limited time, limited budget, and constant demands for communication, reporting, and accountability, it can be a challenge to maintain alignment and cohesion with your leadership team.

MPS facilitates FLT's that aspire to work more cohesively toward their common, Forest-wide goals.

With workshops and coaching, we empower your FLT to make the most of your Forest's talent, workforce, and budget to get the most out of the limited time you have to solve problems and make decisions.

MPS takes your FLT from a group that simply meets, to a cohesive team that plans and delivers outcomes with a **common purpose** in an **environment of trust**.

MPS helps your FLT with workshops around **strategy, decision-making, and problem solving** by designing team collaborations focused on higher levels of cohesion and effectiveness.

Facilitation, Leadership Education, & Executive Coaching Forest Service BPA 12318721A0012
